

## ACTION TAKEN REPORT

### OFFICE OF THE PRINCIPAL GOVT. COLLEGE FOR WOMEN, JIND

To

Dean of Colleges,

CRSU, Jind

Memo. No.

7127

Dated:- 14/02/2020

**Sub: Suggestions for curriculum enrichment report**

R. Sir,

After collecting feedback(2018-2019) from different stakeholders viz. Students, Teachers, Alumni and Parents regarding Curriculum, proper analysis of the results is carried out to identify the gap between **the actual and the expected outcomes**. This analysis is then looked into by the **IQAC** to identify suitable measures to be taken to improve performance on continuous basis. So, here are a few suggestions from this team to the university regarding course curriculum.

- Personality development should be the part of curriculum to help the students to face the real world with confidence when they step out of the college.
- Topics for competitive exams should be added in the syllabus which would increase the chances of employment and also helps them to go for higher education in renowned institutes.
- There is need to introduce skill based syllabus into curriculum.
- The syllabus needs to be revised in some faculties where the adoption of KUK syllabus is there.
- The syllabus is not available on the university website and any changes made by the KUK are not available to the college with full authenticity.
- The course curriculum is not enough to face daily life challenges like stress, depression, memorizing ability etc. So, necessary steps should be taken in this regard too.
